The last rail between Kansas City, Mo., and Wyandet

City, Kansas—the connecting link Joining the Missouri Pacific and the Union Pacific (E. D.) Railroads—was laid down on Monday, April 2, by the principal officers of the two roads. On Tuesday the new Board of Directors of the Union Pacific and a number of friends of the enterprise made a journey of inspection to Cross Creek, the present terminus of the line, ninety miles west of Wyandot. The road will be ready for traffic to Fort Riley early in June, giving three hundred and seventy-five miles of direct rail west from St. Louis

build a new trunk line to the East:—
It may be regarded as settled that the projected trunk railroad through Pennsylvania has received its quietus for at least a considerable period. The Atlantic and Great Western Company and the Pennsylvania Railroad Company have come to terms with each other. The Great Western Company have leased the Philadelphia and Erie road, and stipulate to lay a third rail for a narrow track from a point eleven miles west of Corry to Chennati, and eventually on to the farthest point to be reached by that line. Until this third rail shall be laid goods will be trans-shipped at Corry. These stipulations have been forwarded to England for approval by the capitalists there interested in the Great Western. This gives them a new route to Philadelphia by the Catawissa and the Reading roads, and the Lohigh Valley and New Jersey Central to New York.

We have very little alteration to note in the market in London for American securities since our last; prices have remained steady—any tendency to improvement in quotations induced by the falling premium on gold in New York being counteracted by fears of political trouble in Germany. United States 5-20 bonds and Erie shares in Germany. United States 5.20 bonds and Erie shares each close at an advance of 35 per cent on our last week's closing quotations. For Illinois shares there has been a very active demand; they have touched 81, but close 30 % to %. Atlantic and Great Western debentures and consolidated bonds continue to be pressed for sale, and close at a decline of 2 per cent.
